

# Return to Office Signage Solutions

## PLUG & PLAY APPROACH

**Gensler's Self-Starter system includes a set of more than 70 core signage components, direct-printed onto durable, cleanable Sintra® PVC board and low-tack vinyl adhesive films.**

New signage and wayfinding graphics can encourage practices that will:

- Facilitate new habits
- Set a new precedent for co-worker interaction
- Build a sense of community

Our approach shifts the design and tone of voice to something more friendly and human, to help instill a sense of community and common purpose.

Clients can choose the signs they need, and place an order directly with our selected national fabricator, Sandy Alexander, Inc., to be drop-shipped to their offices and installed by facilities staff.

For ordering information:
